### Testimonials.

In the end, it is what our customers say that really matters. Here are the comments of some of them:

**Johnny Hanekom,  
Keetmanshoop, Namibia:**

The two (2) machines that I've bought, exceed all my expectations as far as power generation is concerned. I am really pleased with their performance, and I am planning to buy the third unit.

**Johnny van der Linde,  
Groblershoop:** We are retired on our farm outside Groblershoop, and have always experienced a shortage of electricity from the solar panels we had. With our Winglette wind generator now installed, we are seeking ways to utilize the abundance of power that available now!
